## adaptation

He urged his colleagues to study development in terms of ecological contexts, that is the normal environments of children schools, homes, daycares.

## Attuning to the technicalities in Ecological Dynamics: Getting to grips with organism

Therefore, our discussions about evolution must take into consideration that each organism is a consortium having numerous genomes, not just one, as traditionally assumed.

## Environmental Psychology Basics

The ancestors of giant pandas and all closely related species, such as , , and , also have sesamoid bones, though the latter species do not feed on bamboo or use the bone for feeding.

## Different uses of Bronfenbrenner's ecological theory in public mental health research: what is their value for guiding public mental health policy and practice?

Proposition 2: The form, power, content, and direction of the proximal processes effecting development vary systematically as a joint function of the characteristics of the developing person; of the environment—both immediate and more remote—in which the processes are taking place; the nature of the developmental outcomes under consideration; and the social continuities and changes occurring over time through the life course and the historical period during which the person has lived. Human development: traditional and contemporary theories, Upper Saddle River, NJ: Prentice Hall. Adolph studied crawling longitudinally and systematically, describing the crawling behavior of infants over different slopes.

## Urie Bronfenbrenner's Ecological Systems Theory of Child Development

These include clarifying what causal relationships and boundaries exist between the two realms, which different roles developmental processes play in recent evolutionary research, and how these new roles affect ontological frameworks of the organism.

### **The Developmental Systems Approach and the Analysis of Behavior**

Initially applied in the explanation of adulthood and aging, the model has recently been extended to adolescence by Lerner, Freund, DeStefanis and Habermas 2001. Feldman, Kim Sterelny, Gerd B. *British Journal of Developmental Psychology*, 16, 1-13.
