### Quality Improvement

As part of the process, the offender is asked about their desired goals during supervision.

### An empirical evaluation of a sanction continuum: Pathways through the juvenile justice system

Though the Framework has been extensively validated and its use supported via research in Canada, each state also participated in a small-scale exercise aiming to provide preliminary validation results specific to their jurisdiction. In addition, it was hoped that through this Discussion and conclusions The first research question presented asked if the sanctions available in the county studied are being used in a continuum fashion.

### Probation and Parole

Hospital patient safety culture surveys.

### How To Measure Employee Accountability (2021 Guide)

Provider Quality and Resource Home Quality: These teams partner with other DCS divisions to provide a multi-disciplinary approach to oversight of both residential and non-residential providers. The following report presents the findings of Phase I and II of data collection for the Juvenile Parole and Probation Officer Staffing Analysis Project JSAP random moment survey.

### Creating trauma

Among the obstacles to youth engagement in education, training, and employment are high levels of non-participation by youth, a lack of knowledge of the issues among professionals and conflicting objectives and target among programs Stephenson and Jamieson, 2006. The project, which was distinguished by close collaboration among corrections, parole, and community-based organizations, provided intensive preparation for

release for people in the last two months of a lengthy state sentence. First, the data is cross-sectional from one time-period.
