But we too often overlook the objects we use every day. Though many were angered by James leaving, the intensity of the letter written by Gilbert was dulled by the whimsical or, if we're being less generous, ridiculous nature of the font he used. The font was kept by Microsoft and added to the system fonts in Windows 95 and Internet Explorer.

Who knew that an early form of Kevlar could have saved President McKinley if only he'd worn the sample sent to him by an inventor? The main draw would be that the wallpaper was textured and would add a pop pun totally intended of fun to the walls. While variations have come along, the original design has lasted more than one hundred years and shows no sign of going away anytime soon. He began crafting the letters, but, when applied to the speech bubbles in the software, the all-capital-letter font wouldn't fit.
