### The Making of the Limited Test Ban Treaty, 1958

As states parties, we could remain in alliances with nuclear-armed states, as nothing in the treaty itself nor in our respective defence pacts precludes that. The States Parties on whose territory transit or basing points are located shall, as far as possible, assist in facilitating the inspection, including transporting the inspection team, its baggage and equipment to the inspection area, as well as providing the relevant amenities specified in paragraph 11.

### The Comprehensive Nuclear Test Ban Treaty: An Insider's Perspective

Trachtenberg, A Constructed Peace, pp. If more than one restricted-access site is declared, each such site shall be separated from any other such site by a minimum distance of 20 metres. Atmospheric testing almost doubled the concentration of  $^{14}\text{C}$  in the Northern Hemisphere.

### Limited Nuclear Test Ban Treaty

During the on-site inspection the inspection team shall have, inter alia: a The right to determine how the inspection will proceed, consistent with the inspection mandate and taking into account any steps taken by the inspected State Party consistent with the provisions on managed access; b The right to modify the inspection plan, as necessary, to ensure the effective execution of the inspection; c The obligation to take into account the recommendations and suggested modifications by the inspected State Party to the inspection plan; d The right to request clarifications in connection with ambiguities that may arise during the inspection; e The obligation to use only those techniques specified in paragraph 69 and to refrain from activities that are not relevant to the purpose of the inspection. As Hiroshima survivor Setsuko Thurlow after the treaty was adopted, This is the beginning of the end of nuclear weapons.

### Comprehensive Nuclear

The number of inspectors and inspection assistants accepted by a State Party must be sufficient to allow for availability of appropriate numbers of inspectors and inspection assistants. The inspection team shall be briefed by representatives of the inspected State Party with the aid of maps and other documentation as appropriate.

### Nuclear Test Ban Treaty

This cooperation shall include the establishment and operation of a global network of hydroacoustic monitoring stations. Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization.

### **Partial Nuclear Test Ban Treaty**

Show students the and discuss the history of nuclear testing from 1963 to the present. At the end of March, the Soviets announced that they were unilaterally halting nuclear tests.

### **Show Treaty**

The opponents' argument centered on four themes.

### **The History of Nuclear Proliferation**

On August 5, 1963, after more than eight years of difficult negotiations, the United States, the United Kingdom, and the Soviet Union signed the Limited Nuclear Test Ban Treaty.
