And yes we can answer your questions, ask us by email, on Google plus or Facebook and we will try to solve your gardening problems. The speaker reminds us that although the main attention is given to the more visible monuments, buildings, museums and artworks, archives and libraries are important issues in the consideration of cultural heritage. *Araucaria bidwillii* Bunya bunya Dorothee Nijgh de Sampayo Garrido, 2012 The bunya bunya is a majestic conifer, native to coastal ranges near Gympie in south-east Queensland Bunya Mountains.

Distribution: From south coast of NSW to northern Qld. Colonial poets and cartoonists often personified Australia as a virgin, a young, untouched white female, waiting to be claimed and made fertile by British manhood.

Gazania linearis (Thunb.) Druce

From discussions held in 1971 there emerged general support for an index to Australian plant names as a preliminary work which would lead

towards a new Flora. From its earliest days to the present, Kew has in many ways exemplified botanic garden ideals, and is respected worldwide for the published work of its scientists, the education of horticultural students, its public programmes, and the scientific underpinning of its horticulture. He worked as a consultant anthropologist in the Goldfields of Western Australia from 2000-2003, specialising in ethnographic clearance work for mining developments.

Note: In this presentation, Pruszyńskas explains the difficulty of compiling detailed lists of losses incurred as a consequence of WWII and its aftermath, a time when Poland suffered under the occupation of both the Nazi and Soviet regimes. The second part, distributed in 1979, covered Abarema to Acacia Chapman, 1979.
