## Rules and Regulations

General Approach In 1991, the state legislature created an assisted living program ALP and authorized contracting for 4200 units.

### Assisted Living Policy and Regulation: State Survey

This prevented people from moving in to an ACLF who needed the services upon move in. Post-diagnostic support for people with dementia We found limited high quality studies of post-diagnostic support interventions, possibly because the drive to provide post-diagnostic support is too recent to have allowed for completion and publication of anything other than small scale qualitative studies.

## Diagnostic Criteria & Guidelines

General Approach In 1992, the Director of the Department of Health formed a task force to determine how board and care homes can be established as low cost options in the continuum of care for the elderly. The original law emphasized aging-in-place and the regulations included a requirement that residents must reside in the facility 90 days prior to the need for ECC services.

## Rules and Regulations

An RFP process has been implemented for 700 units in New York City.
