Gypsies in Europe

The majority of the 297 articles dealt with issues beyond the focus of this review, namely social problems related to the health of the Roma 28. Roma children are often over-represented among the children placed in out-of-family care, including in institutional, foster care and for residential schools for children with mental challenges. In French the name Bohémien was adopted.

International Migration in Europe

Matras Y, Leggio D V, Constantin R, Tanase L and Sutac M 2015 The immigration of Romanian Roma to Western Europe: Causes, effects, and future engagement strategies MigRom : Report on the Extended Survey, University of Manchester. Based on a survey of 2,000 women aged 45-64 in 1989 in Finland, this study examines 1 the relation between these definitions and women's own definitions of their climacteric status and of the cessation of menstruation and 2 the effect of menopausal and postmenopausal hormone therapy and hysterectomy on the definition of menopause and climacterium. There are sound reasons for this.
