Pride, Prejudice, and Politics:... book by Gary Dean Best

He reexamines the issue of why businessmen and bankers were so critical of the New Deal--criticisms that have been, until now, largely dismissed as motivated by greed and selfishness. One investment banker testifying before Congress in 1935 on a particularly odious bill asked: Is it the wish of the Government in Washington to advance recovery; to ease those who are seeing their income and their savings shrinking, to quiet fears that retard all progress, to do the utmost possible to help us out of this depression? In the election of 1920, the nation thoroughly repudiated the Progressives. He is also the author of *To Free a People: American Jewish Leaders and the Jewish Problem in Europe, 1890-1914* Greenwood Press, 1982 and *The Politics of American Individualism: Herbert Hoover in Transition, 1918-1921* Greenwood Press, 1975.

Pride, Prejudice, and Politics:... book by Gary Dean Best

Most of the book's sources are from contemporary documents that illustrate the desperate straits business was pushed into by Roosevelt's policies.

Pride, Prejudice, and Politics: Roosevelt Versus Recovery, 1933

After his thorough demolition job, there's little left of New Deal pretensions. He was a gentleman and scholar and is missed.

Pride, Prejudice, and Politics:... book by Gary Dean Best

Best provides one of the most careful and objective studies published to date on the actual effects of Roosevelt's policies and programs on American business operations and psychology.

Pride, prejudice, and politics : Roosevelt versus recovery, 1933

His work is an important counterweight to conventional evaluations of Roosevelt and the New Deal and should be required reading in any course dealing with the history and politics of the 1930s. I met him a few times at local watering holes after he had retired from UHH.

Pride, Prejudice, and Politics: Roosevelt Versus Recovery, 1933

He also asks how Roosevelt and his advisors could have hoped to produce an economic recovery when a state of near war existed between the administration and the employers and investors who, alone, could produce such a recovery. What the suffering of millions of Americans couldn't do, the loss of some seats in Congress did.
