## Calculating Gifts: George A. Huggins and the Conferences on Annuities, 1927

Bad news will certainly follow. In 1971, he broke the Bretton Woods system of financial exchange and unleashed market-driven globalisation.

## The economic history of the regional problem in Britain, 1920

Too many on the left are agreeing with each other over how correct they were about the past.

## Treasury: Papers of Lord Bridges

We need water in order to survive.

## Calculating Gifts: George A. Huggins and the Conferences on Annuities, 1927

Let us move on from the implications of ontology and epistemology depicted here for historians of ideas and see how the case stands for modern mainstream economists. In the pastoral industry the trend towards mechanisation came earlier.
