Copyright 2014 by the UNESCO Institute for Statistics.

## Selection of Research Problem Criteria and Characteristics

Does the application address the goals and objectives outlined in the FOA? B Obligation of public agency i In general If any public agency other than an educational agency is otherwise obligated under Federal or State law, or assigned responsibility under State policy pursuant to subparagraph A , to provide or pay for any services that are also considered special education or related services such as, but not limited to, services described in section 1401 1 relating to assistive technology devices, 1401 2 relating to assistive technology services, 1401 26 relating to related services, 1401 33 relating to supplementary aids and services, and 1401 34 of this title relating to transition services that are necessary for ensuring a free appropriate public education to children with disabilities within the State, such public agency shall fulfill that obligation or responsibility, either directly or through contract or other arrangement pursuant to subparagraph A or an agreement pursuant to subparagraph C.

## Three things to consider about increasing access to higher education (essay)

The patients with intellectual disability were between 23 and 57 years of age; seven were male and seven female.

## Three things to consider about increasing access to higher education (essay)

If awarded, the exceptional costs for expensive travel replace the standard travel grant. The student would then give the statement to a science or mathematics teacher who would use it to prepare a letter of recommendation that addresses four specific items: probable creativity and interest in a science and mathematics career; persistence in meeting challenges and goals; assessment of academic potential; and level of performance relative to potential.
