Richard Hula, Cynthia Jackson-Elmoore, and Laura Reese consider the nature of faith-based and secular service delivery models in the housing sector. One example is that faith-based organizations perceive local politics and regulations as more problematic to their participation in delivering services than community-based organizations.

Towards Zero Harm: A compendium of papers

A variety of topic areas were listed as examples of areas of interest, including criminal justice and prisoner reentry, innovations in governance e.

Towards Zero Harm: A compendium of papers

To develop measurement of the components of faith that permeate the organization and services, researchers convened work groups composed of various GRM staff members and interviewed key stakeholders about the organizational mission and the faith-based substance abuse recovery services as well as any secular services. It explains how the impacts of global heating are likely to undermine not only basic rights to life, water, food, and housing for hundreds of millions of people, but also democracy and the rule of law.
