The most important factor when working with interracial families is safety and openness between the client family and the therapist in order for intimate conversations about race and racial identity to take place in therapy.

Multiracial Families

American Journal of Orthopsychiatry, 70, 433-144. The primary effort in this area has been the development of models to identify and examine how biracial individuals create personal and racial identity. Such changes have caused a considerable increase in the population of biracial children and multiracial families in the United States.

Evidence has shown counseling can be an effective method for achieving wellness.

ERIC

Breaking barriers for multiracial individuals and families. Understanding of biracial identity started by society initially viewing biracial existence as inherently problematic and maladaptive out of the belief that biracial individuals could never wholly identify with, or fit into, a larger racial group.
