Immigrant communities developed primarily along the river. The accent is said to be a remnant of early English London speech, strongly influenced by the , and modified by the many immigrants to the area. The opened in 1570, and until its closure in 2016 was the oldest manufacturing company in the UK.

### **Author Article by John Marriott: Uncovering the real history of East London**

The late 19th century saw a major movement of people to and to service the new docks and industries established there. East London has always been the poor relation of the West End. However the presence of the city and maritime trades as a market for goods and services led to a thriving mixed economy in the countryside of the Manor of Stepney.

### **Kenneth Cozens**

Beyond these reference points, the East End has no official or generally accepted boundaries; views vary as to how much of wider lies within it. One would think there would be a chart of the written scripts of East Asia.
