Five Common Glaucoma Tests

Care-Help LLC, publisher of HelpingYouCare®, is a Florida limited liability company; not a 501 c 3 charity. A measurement of eye pressure, though an important part of a comprehensive eye exam, is, by itself, not sufficient for the detection of glaucoma. During tonometry, eye drops are used to numb the eye.

Visual Field Test: How It Works and What the Results Mean

Once you confirm that subscription, you will regularly receive communications related to AARP volunteering. Kinetic perimetry may be used for neurological field deficits, such as visual changes caused by a stroke or from

Five Common Glaucoma Tests

True False Not Sure 1 Glaucoma is more common in African Americans than in Whites. Glaucoma develops slowly over time, which is why many patients will go years before noticing any symptoms.

EYE

In the meantime, please feel free to search for ways to make a difference in your community at. Diagnosing glaucoma is not always easy, and careful evaluation of the optic nerve continues to be essential to diagnosis and treatment. Tonometry is a procedure in which your doctor uses a tonometer to measure IOP.

What You Should Know

To see if you have a perfect Eye-Q score, read all the answers that follow below.

Eye Health Quiz

Take this Eye-Q test — See how much you know about glaucoma Millions of Americans are at risk for vision loss from glaucoma, a leading cause of blindness in the United States. If your intraocular pressure IOP is not within the normal range or if the optic nerve looks unusual, your doctor may ask you to have one or two more glaucoma exams: perimetry and gonioscopy. Doctors can easily measure IOP and use it as an important gauge in the diagnosis and treatment of glaucoma.

Glaucoma Knowledge Test

Individuals at increased risk for the disease should have their eyes examined through dilated pupils every one to two years by an eye care professional. Because automated visual field testing machines are computerized, the results of individual tests can be tracked and certain statistics calculated to rule out error.
