## Urban Labour Market

Based on a decomposition of the higher income observed in monopolized industries, Yue et al. These previous studies illustrate the importance of industry segmentation on income inequality in China, but due to issues such as data availability, there still exist two key limitations in the current literature.

## Work

Secondly, it has become an important source of increases in rural income level and has been mainly responsible for the socioeconomic changes in rural China. As shown in model 1 of Table , individual sociodemographics, human capital, and political capital are all important factors in predicting individual income. World Economic Papers 5: 58—76.

## Labour Market Segmentation

Due to data limitations, we cannot examine this effect directly in this study. The noise in the environment does, however, affect the distribution of surplus. Through the administration of taxation or subsidization, governments can act as economic agents to fulfil public expenditure or saving accounts, and function as administrative units to design alternative policy scenarios and implement instruments of abatement.

## Economic Segmentation and Health Inequalities in Urban Post

The model is solved analytically and a closed form solution is provided.

## [PDF] Does Informality Imply Segmentation in Urban Labor Markets? Evidence from Sectoral Transitions in Mexico

They focus exclusively on substitution and input requirements to produce a given energy throughput. A comparison of sectoral growth in Côte

d'Ivoire, Ghana and Zimbabwe since 1965 provided evidence against the existence of a basic dual economy model. The more intractable the agency problem—the greater the value of  $\sigma$ —the higher is the wage required to achieve efficient effort and so the greater the surplus accruing to the worker.

### **Labor market segmentation by industry sectors and wage gaps between migrants and local urban residents in urban China**

See text for definitions of regional variables.

### **Dual economy**

In Kuper, Adam; Kuper, Jessica eds.
