Technology drives positive changes to the way people work.

The project sponsor role and benefits realisation: More than ‘just doing the day job’

Forthcoming Meeting AHIMA National Convention October 6-9, 1996 American Nurses Association Contact D. From the standpoint of reformulating the HIS, we can see an evolution in the production of information centered almost exclusively in the need of a documental proof on the care rendered by nurses to the citizens to produce information that can constitute a central resource for their clinical decision making.

A Case Study of the Application of the Systems Development Life Cycle (SDLC) in 21st Century Health Care: Something Old, Something New?

International Journal of Evidence-Based Healthcare. ISBN 9781420047455 Tzortzopoulos, Patricia, Kagioglou, Mike and Treadway, Ken 2008
In: Clients Driving Innovation. All interested persons are welcome to participate.

Clinical information systems : a framework for reaching the vision

ORG Recently Published Healthcare Informatics Standards Next-Generation Nursing Information Systems: Essential Characteristics for Professional Practice Zielstorff, Hudgings, Grobe, 1992. Nursing informatics is broad, accommodates a diverse array of nursing strengths and interests, and impacts virtually every aspect of healthcare where technology integrates with clinical practice, no matter the setting. Reducing unnecessary test duplication Evidence suggests that through the use of an electronic health record there is an estimated 18% reduction in test duplication 4.
