## **Urban and Young: The Future of the Middle East**

Looking ahead, these diversified economies face the challenge of continuing to expand exports while building a dynamic domestic economy. Using a large new city-specific data set covering Europe, the Middle East, and North Africa, we unravel the role of geography and institutions in determining long-run city development in the two regions.

## **Urban Development in the Middle East and North**

While the level and impact of each of these varies, the cities that clearly emerge head and shoulders above others possess at least some element of each category.
