**Holdings: The only night this season, and the last but two of performing. At play**

Want to get more out of the basic search box? From 1674, theatre-goers accessed the Theatre Royal Drury Lane via a long ten foot wide passageway from Bridges Street. Sheridan employed dozens of children as extras at Drury Lane including who made his stage debut at the theatre in 1780. The narrow passage from Bridges street to the theatre now became an interior hallway; some theatre office space also went up behind the new facade.

**Holdings: At play**

The only night this season, and the last but two of performing. This was a cavernous theatre, accommodating more than 3,600 spectators. Their additions included an ornate ceiling and a stucco facade facing Bridges Street.

**Theatre Royal, Drury Lane**

The building is the most recent in a line of four theatres which were built at the same location, the earliest of which dated back to 1663, making it the oldest theatre site in London still in use.
