International Exchange

Topics covered include cellular neurobiology, neuronal signaling, neural development and plasticity, comparative neuroanatomy, and neurobiology of complex brain functions such as sensory processing, arousal, emotions, learning, and memory. All courses are identified by numbers composed of four digits. To this end, department leadership and faculty members of the Department Diversity Committee commit to working with student members of the diversity committee in the upcoming weeks to identify specific actions we can take in the coming months and years to help address this injustice and inequality.

Behavioral Sciences

Description: Survey of behavioral, personality and psychophysiological components of human sexuality, with special emphasis on the delineation of facts from sexual myths. It is the third largest Florida university by student population, and is the eighth largest single-campus university in the United States with 49,913 students enrolled for the fall 2012 semester. Social Psychology REQUIRED ELECTIVES: Students will take at least three additional content courses in social psychology from among those courses and seminars offered by the social psychology faculty.

Muzafer Sherif: to Social Psychology at the Crossroads

We conduct advanced research in these areas and take great pride in our teaching and mentoring on a wide range of topics. If you have a question contact us at.

Department of Psychology

In addition, the formal curriculum is supplemented by a bi—weekly informal research meeting in which all members of the program participate. These residencies last five days each and feature various academic and social activities. Are you psyched for a career in psychology? After the defense, the student is admitted to PhD candidacy by the Graduate College.

Psychology Textbooks

Candidates admitted with only a bachelor's degree typically complete additional credits equivalent to a master's.

Graduate Program

After completing their degrees, our students typically move into faculty and postdoctoral positions at top-tier institutions throughout the country. Our mission at the undergraduate level is to provide students with rigorous training in the science of psychology by presenting historical and contemporary research on human and animal behavior. Description: Primarily for graduate students with well-defined new teaching responsibilities.
