The purpose of the Ybor City Historic District is to promote and preserve this historic district and its landmarks for the educational, cultural, economic and general welfare of the public through the preservation, protection and regulation of buildings, sites, monuments, structures and other areas of historic interest or importance within the Ybor City area of the city; to safeguard the heritage of our city by preserving and regulating this district and its landmarks, which reflect elements of our cultural, social, economic, political and architectural history; to preserve and enhance the environmental quality and safety of this district and the neighborhoods within it; to strengthen the city's economic base by the stimulation of the tourist industry; to establish, stabilize and improve property values; to foster economic development and manage growth. Some planning commissions will consider applications for variances, though this responsibility can also fall to the BZA. In The Text of a Model Zoning Ordinance, Bair and Bartley urge that diagrams be used in the definitions section: It is well to remember that a diagram sometimes tells more than many words.
