The DECOVALEX III project: A summary of activities and lessons learned

The complexity of Great Britain's geology is due ultimately to its being subject to a variety of processes over a very extended period of time. Derk Hartman MSC mining engineering Director Derk Hartman has over 17 years of experience in the banking and mining sectors and has been a founder, officer and director of several public and private companies. Lithological information is generalised for each geological unit, and local conditions may vary.

Close

Less known is his interest in SF and indeed years ago we previously met in the green room at the 1987 World SF Convention in Brighton where the Nobel Prize-winning writer , Hugo-winning writer , and were its Guests of Honour.

Geology

These were laid down in marine conditions and are the local representative of the laterally variable Harwich Formation. Some of this uplift was along old lines of weakness from the and long before.

The University of the West Indies Seismic Research Centre

Spring 2011 Polish edition of my CUP climate book arrives. He is also non-executive chairman of AfriTin Mining Ltd.
