## Sexual Assault Statistics

School of Public Health, University of California, Los Angeles. Although specific components of these services vary, there are some common features Fraser et al.

## Characteristics of Sexual Abuse in Childhood and Adolescence Influence Sexual Risk Behavior in Adulthood

The experimental group did report fewer family problems and lower stress but did not report greater social support.

## Resources Specific to Victims of Sexual Abuse

Deblinger E, Stauffer LB, Steer RA.

## Normative Sexual Behavior

Final report submitted to the National Institute of Justice; 2007. Themes for SRH intervention components were developed iteratively after manually coding the papers and extracting relevant data.

## Prevention of Child Sexual Abuse

Due to the nature of the sample, these results of the present study may not generalize to other populations. You and we have the right to know, learn, read, hear what and how we deem appropriate.

## Multiple Victimization of Rape Victims Rape Crisis Information Pathfinder

Neither does the research base yet clarify whether enriching the supply of community resources will lead to expanded use of support services by

families at risk of child maltreatment. These gains were maintained at the 3-month follow-up assessment.

**An intervention program for women who were sexually victimized in childhood or adolescence : final report (Book, 1989)**  
**[styleguide.expo.io]**

This article discusses recent Australian research on the association between out of home care and the criminal justice system, and highlights the opportunity for therapeutic care to break this connection. We endeavour to provide the community with real-time access to true unfiltered news firsthand from primary sources. The relevant outcome in this approach is the intervention's ability to produce beneficial changes in the parents' mental health relative to comparison groups, including reduction of depression and negative effects of life stress and enhanced self-esteem.
