Cecil Balmond

The book cover has no visible wear, and the dust jacket if applicable is included for hard covers.

They said it couldn't be done

After living briefly in Nigeria he moved to Britain and continued his studies at the and at.

Cecil Balmond

For example, there is a section on his collaboration with the artist Anish Kapoor that documents the 2002 installation of a giant red gramophone-shaped fabric tube at Tate Modern in London. Balmond has revolutionised the relationship between structural engineer and architect, acting like a spur, pushing them into unknown territory. No missing or damaged pages, no creases or tears, no underlining or highlighting of text, and no writing in the margins.

They said it couldn't be done

Text by Pedro Bandeira, Eduardo Souto de Moura, Diogo Seixas Lopes, Philip Ursprung. This leads to Flux, where visitors are surrounded by walls of film showing Balmond's favourite geometrical device: fractals, the structural basis of the 2002 Serpentine Summer Pavilion. One current project is the Gretna Landmark, for which Cecil is the artist.

Cecil Balmond: Frontiers of Architecture I

In 1968 he joined Arup, the international engineering company, then busy with the completion of the Sydney Opera House. Cecil Balmond is a — designer, artist, and writer. In 2016 Balmond was also awarded the Thomas Jefferson Foundation Medal in Architecture by the University of Virginia.

Cecil Balmond Frontiers of Architecture I ARTBOOK

To open its Frontiers of Architecture series, Denmark's Louisiana Museum of Modern Art chose the engineer, innovative thinker and writer Cecil Balmond, honoring him with an exhibition of projects past, present and future. Over the past decade, Balmond - designer, musician, university teacher and author as well as engineer - has been working with some of the world's most daring architects to create radical new buildings.

Cecil Balmond

It investigated structural systems, delving in the basin of order and patterns and engaging with music, algorithms, and malignant cellular structure to create abstract concepts that inspired tectonic forms. Foreword by Poul Erik Tojner.
