Collier's Encyclopedia

Information in the Micropædia is sometimes inconsistent with the corresponding Macropædia articles, mainly because of the failure to update one or the other. Wide-angle lenses made it possible to film relatively large subjects at close range—as in small rooms and automobiles.

History

For greater range and ease of movement, the camera and operator are mounted on a dolly a wheeled platform that can be propelled around the set. Hudson, The Permanent Court of International Justice 1920—1942 1943.

Encyclopædia Britannica

I bought the book about 35 years ago in a charity shop for a couple of dollars! Students will participate in lectures on materials, a computer lab, experimental labs, and field trips to both industrial and Penn facilities.

Almanac

The reasons for this are similar to our reasons for being concerned with educational opportunity in the first place. Women's Studies, University of California, Irvine, 1975 Awards, Grants, and Honors NEH grant to direct summer research seminar for college teachers, Stanford University, 2001-2002.
