Battle of Waterloo, 1815

The general commanding issued, through his Adjutant General, orders to regimental officers, who came each day to headquarters to receive them — and they were then read or relayed to the men of regiments as they assembled. He divided his army into two wings, the right wing under the command of Marshal Grouchy and the left wing under the command of Marshal Ney.

It becomes clear that both sides made fundamental errors that could easily have tipped the result the other way.

Battle of Waterloo

When the British guns were captured, the Cavalry did not find them usable even if inserted with tiny headless nail into the prining tube.

The Battle of Waterloo

In the attack, Picton was killed and Hanoverian and British troops began to give way under the pressure of numbers. The Guard fell back from Plancenoit in the direction of Maison du Roi and Caillou.

WATERLOO; The History of Four Days, Three Armies and Three Battles

Many of his battles were won using a combination of the manoeuvrability and fire power of the French guns, with the speed of French columns of infantry, supported by the mass of French cavalry. However, I did suspect that he was working largely from the same set of notes - not a complaint, but certainly an observation. Why is the Battle of Waterloo important? The Bourbons resumed their interrupted reign in France with King Louis XVIII.

Battle of Waterloo: Armies, Battle Tactics and Orders

Napoleon lost 25,000 dead or injured, with 8,000 taken prisoner. When a master storyteller writes a book telling the story of a major historical battle, the result is a written historical masterpiece. Some of the cuirassiers have found themselves hemmed in by the slope sides of the sunken lane.
