How to make a Mediterranean garden

It can be bought in lawn and garden stores or made at home. In countries such as Italy, Greece and Spain, cobbles and pebbles can be woven into flamboyant designs, a factor which has become a popular Mediterranean technique which dates to ancient times. This is good for drought-resistant and mulched plants.

Pacific Horticulture Society

Warm-season crops cannot survive the winter frost and need sunlight to grow.

Alan Titchmarsh's tips on creating a Mediterranean garden

The gravel is a custom mix of several colors and adds a warm hue to the scene. Cypress trees, lemon trees, lavender, strawflower, lavender cotton, European redbud, even succulents — these plants and trees give the landscape unique Mediterranean feel. Courtyard gardens are ideal locations to turn into a Mediterranean oasis.

10 Best Mediterranean Flowers

I want to help you bring those elements together to create your very own beautiful corner of the Mediterranean in your outdoor space.

Mediterranean plants for your garden

Gravel also helps hold in heat for drought-resistant plants. These plants often grow in poor soil conditions or dry and arid conditions.

Modern Mediterranean garden: 7 key elements of the style

Clipped box is also currently used for low-growing hedges, providing both structure and basic ornament in all seasons.

How to Garden in a Mediterranean Climate: 14 Steps (with Pictures)

Lead cisterns or large terracotta water storage jars are much more Mediterranean, so use those or synthetic lookalikes.
