This action illustrates the primacy of an NEA Policy Statement over other Association policies that are annually adopted by the Representative Assembly. One of the central messages you should convey in your philosophy statement is why teaching art is important to you and exciting for you.

Policy Council

Numerous reports discuss the ways that increased access and involvement in arts education encourage students to stay in school, succeed in school, succeed in life, and succeed in work. The first statement was drafted and approved by the membership and published in 1995.

NEA Policy Statements

It is important to note that even when such efforts do not actually suppress particular types of expression, they cast a shadow of fear which leads to voluntary curtailment of expression by those who seek to avoid controversy. You can include ideas of how you plan to measure or assess the effectiveness of this approach.

Sample Statement of Purpose

Through postgraduate studies I hope to improve my creative abilities, broaden my point of view, and cultivate the ability to be both an innovative artist and an influential teacher. You might be passionate about arts integration, for instance, and thus hope your students gain an understanding of the interplay between the arts and other scholastic subjects. Show Support A donation to our cause will help us ensure that other arts supporters like you have all the tools and resources they need in order to effectively convey the importance of arts education to anyone.

Edutopia

Moreover, it is not only artworks that are being subjected to efforts at suppression. If a newly proposed policy statement, or an amendment to an existing policy statement, is adopted by the NEA Representative Assembly, any resolution, new business item, or provision in the NEA Legislative Program that deals with the same subject is editorially changed to accommodate the positions taken in the policy statement. The Policy Council meets twice annually, rotating between Northern and Southern California.
