IOM Report: Ethiopia Records More Than 1.8 Million Internally Displaced in 2020

Every single country from around the world was represented in Australia's population in 2019. There is also migration in the opposite direction from urban to rural areas due to various reasons. Since 2018 quarterly return statistics are collected on a voluntary basis.

International Recommendations on Internally Displaced Persons Statistics (IRIS)

Failure to address long-term displacement has the potential to undermine the 2030 Agenda for Sustainable Development and progress on other international agreements. Most urban population thresholds fall between one and five thousand inhabitants.

Data and statistics on Environmental migration

Other targets directly related to migration mention trafficking, remittances, international student mobility and more. The largest decline has been witnessed in Maharashtra — from over 42 per cent in 1981 to around 32 per cent in 1991.

2020 U.S. Moving Migration Patterns Report

Urban population growth has been propelled by the growth of cities of all sizes. Data collection on cross-border movements after disasters is only starting and limited to localized case studies.
