And precisely the same arguments were made in defense of these medicines as are employed today, namely, that the benefits outweigh the risks. In England, Almroth Wright during the decades from 1900 to 1940, developed therapeutic vaccines to a high degree of efficacy in such diseases as arthritis, pneumonia, streptococcal and staphylococcal infections, boils, typhoid, typhus, tuberculosis, whooping cough, erysipelas, and another 50 or so different conditions. North Atlantic Books, Homeopathic Educational Services, 1981.

Harris L. Coulter, Divided Legacy a History of the Schism in Medical Thought

But this new book moves him even higher. A true tour de force! The majority of physicians, like the majority of people in every profession and occupation, prefer to avoid hard work whenever they can. From 1965 to 1975, Coulter was the director of publications for the American Foundation for Homeopathy, and from 1983 to 1989, he served on the editorial board of the Journal of the American Institute of Homeopathy.

Organized homeopathic summer programs in Melbourne, Florida, and Scottsdale, Arizona. Progress and Regress: Von Helmholtz to Claude Bernard; IIL Science and Ethics in American Medicine 1800-1914 have provided us with a rich history of the empiric tradition in medicine. And those of us who use homeopathy, with all its rational inconsistencies, would get up also.

Divided Legacy: A History of the Schism in Medical Thought Harris Coulter Vol. 2

The scandal was so great that the great Koch's reputation was almost ruined, and for ten years he had to stay outside Germany engaged in research trips to South Africa and the orient. So they put the books of one of the most distinguished nutritionists of the 20th century on the list of

prohibited readings! It is not difficult to conclude that the first is truly scientific while the second is not. Now, what is the value of this knowledge? Therapeutic vaccination, the practice of giving the vaccine to a person already sick with the disease, started with Pasteur's use of rabies vaccination in persons bitten by rabid dogs and with the use of Tuberculin by Robert Koch in 1890 as a treatment for tuberculosis.
