SOLID STATE ELECTRONICS

Author s : National Research Council US Panel on Solid State Sciences United States Office of Science and Technology Coordinating Committee for Materials Research and Development Title s : Research in solid-state sciences; opportunities and relevance to national needs. Should this not be the case, indicate the position of footnotes in the text and present the footnotes themselves separately at the end of the article.

Emerging Priorities in Ceramic Engineering and Science — Viewpoint of the Scientist

Permitted third party reuse of gold open access articles is determined by the author's choice of. Follow the instructions to find out about available data visualization options and how to include them with your article.

Research in solid

Hence, we think that the ONR should have a major research program to understand and control the fundamental characteristics of electronic materials that affect device performance. Any modifications to existing methods should also be described. Please check the relevant section in this Guide for Authors for more details.

Solid State and Materials Chemistry (SSMC)

If other units are mentioned, please give their equivalent in SI. Note that missing data will be highlighted at proof stage for the author to correct. Declaration of competing interest All authors must disclose any financial and personal relationships with other people or organizations that could inappropriately influence bias their work.
