A researcher's guide to the National Statistics Socio

Since many students will have had or still have paid occupations, you could classify them by current or last main job, although we would not usually expect them to be classified in this way. Living longer: implications of childlessness among tomorrow's older population In the future, there will be more older people and a higher proportion of those will be childless. Higher managerial, administrative and professional occupations 1.

The National Statistics Socio

The change arises from the creation of new supervisory OUGs in SOC2010.

NRS social grade

Using the derivation tables 14. Table 4: Comparison of allocations under the reduced and full method Full method Reduced method Total Per cent
1 2 3 4 5 6 7 1 7,647 363 53 8,063 16. Use the SOC 2020 unit group code to find the appropriate row, and work across the row to reach the column for the employment status or size of organisation code.

Economic statistics classifications

Only around 2% of the UK population is identified as , and this group is not separated by the classification scheme.

Economic statistics classifications

We repeat the process until we locate a cell that contains an NS-SEC value. It was derived from OUG and employment status.

Living longer

Positions in this category are distinguished by having a modified labour contract. Filling empty cells in this way does not make the combinations of codes allowable; it provides the best choice of National Statistics Socio-economic Classification NS-SEC value to use when these combinations of codes occur in data. The use of the ONS statistical data in this work does not imply the endorsement of the ONS in relation to the interpretation or analysis of the statistical data.
