After the service, he avoided the great ladies by sauntering up to within a yard or two of where she sat; he craved her hand on his arm to lead her forth by the park entrance to the church, all the while bending to her, discoursing rapidly, appearing radiantly interested in her quiet replies, with fits of intentness that stared itself out into dim abstraction. Glancing back, she could imagine that it was near the period we call, in love, the first — almost from the first. You may as well know him out of hand, as a gentleman of our time and country, of wealth and station; a not flexible figure, do what we may with him; the humour of whom scarcely dimples the surface and is distinguishable but by very penetrative, very wicked inns, whose fits of roaring below at some generally imperceptible stroke of his quality, have first made the mild literary angels aware of something comic in him, when they were one and all about to describe the gentleman on the heading of the records baldly where brevity is most complimentary as a gentleman of family and property, an idol of a decorous island that admires the concrete.

My father came here once, and Sir Willoughby wouldn't see him.

That man is a tenant of mine, farming six hundred acres, Hoppner by name : a man bound to remember that I have, independently of my position, obliged him frequently. Sir Willoughby deserved to have him, for he was above his county friends in his apprehension of the flavour bestowed by the man ; and having him, he had made them conscious of their deficiency. We do not expect so much of women ; the heroic virtues 90 THE EGOIST as little as the vices.

Speech so foreign to her ears, unnatural in tone, unmanlike even for a lover who is allowed a softer dialect , set her vainly sound- ing for the source and drift of it.
