## Curriculum Development and Museums on JSTOR

Students will plan for and reflect on their first-year experiences, receive feedback, and develop a personal plan for future action in order to develop foundational self-awareness and recognize broad-based professional competencies.

## Museum Studies BS

They need to be more than just cultural centres for the community. Vowels were smug and stuck up and Consonants were strong and sassy.

## Schools and Museums: Goals for Students

Students completing bachelor's degrees are required to complete two different Wellness courses. The major includes a set of introductory and advanced core courses to familiarize students with the fundamentals of museum studies, including the history, theory, and practice of institutional collecting, conservation, and the technical investigation of art. The typical museum devotes three-quarters of its education budget to K-12 students.

## Museums and Digital Culture, MS < Pratt

We primarily see field trips as developing transferable skills. So that everyone can identify with what the museums have to offer.

## Schools and Museums: Goals for Students

It sounds like the goal you are talking about is really teaching students to develop the ability to think carefully and critically in response to objects. Their stories emphasize the seemingly minor and everyday ways heritage is transmitted through stories, songs, games, language, and special occasions. The course has no prerequisite and is open to students of all majors.
