### The Unnormal Paranormal Podcast

She will not divulge her age but says she trained as a medical nurse, before she became a Scientist, in 1939.

### Mind Over Matter: Facts, Proof, Science & Evidence

Secularisation is according to Bellah not evident.

### Mind Over Matter: Inside the Christian Science Church

No more financial limitations and no more problems.

### of Mind Over Matter: Part 1 (TV Episode 2004)

Until all of these problems have been solved and we can answer all questions about the universe, there will be room for humility even among the greatest scientists.

### Paranormal Vs Religion?

In my state where alternate medicine is all people can afford, even the health department spreads misinformation, because alternative medicine is profitable. The chemistry between the two is instant, but they are so opposite, I'm not sure I believed that fate meant them to be together.

### Paranormal Vs Religion?

Within the Mind is the brain and body, and there is also a Heart. With this I hope to have covered most of the population that deals with religion and the paranormal.

## **8 Eminent Scientists Who Believe(d) In the Paranormal**

Others can only yearn for something to raise them up out of the herd.

**Mind Over Matter: How thought influences physical reality.**

And we can choose the thoughts and feelings that give substance to what we perceive.
