Canadian Cities in Transition: New Directions in the Twenty

Examining the uneven development and uncertain future of Canadian cities, 41 specialists in the field - urban geographers, political scientists, urban planners, civil engineers - offer state-of-the-art understanding of everything from the evolution of the Canadian urban system to site-specific design, problems of transportation and infrastructure, the containment of urban sprawl, the impacts of immigration and gentrification, and the sustainability of cities - both environmentally and economically. Will not include dust jacket. Find great deals on bonded Desiring to offer our customers quality furniture that will last for years to come, we carefully craft our products from start to finish.
