Max Planck Encyclopedia of Public International Law

States party to a treaty explicitly consent to be bound by codified rules, whereas with customary international law states implicitly agree to be bound to particular rules through consistent state practice.

International Law Encyclopedia

This examination of international law and its application in Asia reveals the shared history of the continent, as well as its unique development in each Asian state. Several of these, however, were relevant to the fields of international trade, investment and intellectual property, in that they raised issues of state responsibility and involved various kinds of property claims on behalf of foreign nationals. Several synonyms of the word hinterland in this boarder sense exist in technical literature, for example, catchment area, exurb, urban—rural fringe, and peri-urban zone.

International Law Encyclopedia

In 2018 an initiative for a general and more comprehensive revision of the MPEPIL electronic version was launched, entailing both the revision of existing entries and the inclusion of new ones. In addition come the tasks of ensuring that the environment is appropriately integrated in the decision-making processes of relevant public authorities, and establishing appropriate divisions of work between central and local authorities. At times, nonbinding intergovernmental resolutions have been highly persuasive, and the conduct of states has tended to follow the principles embodied in these resolutions.

In the absence of a supranational authority, states establish the rules of international law. Human rights and the individual in international law. Arbitration is a voluntary process of dispute resolution where a neutral third party renders a final and binding decision after each side has an opportunity to present its view.

Max Planck Encyclopedia of Public International Law

Analogous to domestic legal concepts such as usage of the trade and course of dealing, the idea behind customary international law is that

widespread international practice undertaken out of a sense of legal duty creates reasonable expectations of future observance and constitutes implicit consent to the creation of legal rules.
