**jsohnrethel**

Our comrades everywhere are making commendable efforts to force school boards to feed the children. Children then created their own heart shaped pincushions or cards, decorating them with a collage of coloured fabrics and sequins. Indian kyanite supplied to the Glenboig Union Fireclay Company Limited 18.

## **Braehead Village Survey Report**

It is time that Fife took up the same attitude. One youth was found guilty by Bailie J. Rollox, there is also a large depot at which stocks of great magnitude are held.

## **Braehead Village Survey Report**

The blast was created, and the tilt-hammers, lathes, and other machines were driven by water applied over a large number of wheels. It is regrettable that the other Glasgow branches did not put forward a man in their several wards. The respondents were not entitled to use the trademark and had no reasonable excuse for doing so and the addition of their own name would not justify them in adopting the trademark of their neighbour.

## **Glenboig Union Fireclay Company, Glenboig, North Lanarkshire**

Glenboig Union Fireclay Co Ltd V Commissioner of Inland Revenue. They were recovered from an old garden path at a house in Chinchin Street, Islington, New South Wales. But he failed to inform us how even to keep the present remnant on the land.

**jsohnrethel**

Let us gather our forces and have a sweeping campaign, Here is a chance for direct action the agitational field.

## **Scottish Notes by John Maclean 1912**

A Commission on coal in the UK in 1871 - made the following point about ironworks consumption of coal in Scotland. Our every experience proves that they do not step aside but fight us more immorally pace Sir H.

## **Scottish Notes by John Maclean 1912**

There are certainly many possible kiln sites among the quarry spoil heaps, these ambiguous features have not been recorded here. It was established in 1759, by John Roebuck, of Birmingham, a medical doctor involved in chemical and metallurgical research, and Samuel Garbett a business man from Birmingham, with branch establishments in Edinburgh, in association with William Cadell of Cadell and Edington, ironmasters of Crammond.

## **jsohnrethel**

However, the initial boom lead to increased competition, and increasing production, and not all of the new works survived.
