## Special Papers

Light water reactors make relatively inefficient use of nuclear fuel, mostly using only the very rare uranium-235 isotope. SADC Secretariat on behalf of the Tripartite coordinates the programme. For example, questions are often raised on how markets, agri-business centres, fish-landing sites and agro-processing centres delivered through public sector investments will be managed especially after project closure.

## Nuclear power

Proponents, such as the and , contend that nuclear power is a safe, sustainable energy source that reduces.

## Inclusive growth: an imperative for African agriculture.

The magnitude of these figures masks a more fundamental need. So far, the Bank has effectively worked with IFAD to meet some of the needs in some projects for production linkage to technology sources; acquisition of inputs such as fertilizers and pesticides; extension and research linkages; and capacity building.

## Special Papers

The reason for this is the prevalence of non-tariff measures and physical market access barriers, such as poor infrastructure affecting African countries. Gulf private equity investment in Africa is likewise a niche activity, dominated by a handful of funds.

## Nuclear power

Washington, DC: National Academy Press. In the United States, plants are surrounded by a double row of tall fences which are electronically

monitored. We know when red lines are crossed — which we did not see in the 1930s.

### **Special Papers**

**Lake Tanganyika Transport Programme:** This workshop has been organised by the EAC Secretariat in collaboration with the Central Corridor Transport Facilitation Agency and the World Bank. However, trade in tasks, firm capabilities and agglomeration will drive industrial location choices.

### **Nuclear power**

Year-on-year, all the sectors within the tertiary industries slowed down indicating slower economic activities across the service sector except for financial intermediation which remained flat. Evacuation and long-term displacement of affected populations created problems for many people, especially the elderly and hospital patients.
