Imagine being in a wheelchair and trying to use a sidewalk without the benefit of wheelchair-accessible curbs. They are also engaging with an expanding range of alternatives to conventional biomedicine: health practices and knowledge such as yoga, fitness regimes, dieting, acupuncture, traditional Chinese medicine, chi gong, naturopathy, homeopathy, chiropractic, and indigenous healing practices.

Sociology as Applied to Medicine

Core nations are those that we think of as highly developed or industrialized, semi-peripheral nations are those that are often called developing or newly industrialized, and peripheral nations are those that are relatively undeveloped. For example, to Thomas Scheff 1963, residual deviance—a violation of social norms not covered by any specific behavioural expectation—is what actually results in people being labelled mentally ill. Their condition is not a form of deviance from the norm, but a different form of normality.
