## China

Also the China Civil Engineering Construction Company CCECC , which participated in the construction of the Addis-Djibouti railway, is involved in new major rail lines in Nigeria.

## One Belt One Road Initiative of China: Implication for Future of Global Development

An updated version of the plan released in January 2018 said China aimed to become the world's leading manufacturer of telecommunication, railway, and electrical power equipment by 2025, and that China's robotics, high-end automation, and new energy vehicles industries would globally rank second or third by 2025. Government strategies should be developed that give incentives to take positive action to manage lands sustainably. For instance, despite the share of China of 5.

## China's Search for a Grand Strategy

From 2008 to 2010, China's real GDP growth averaged 9.

## One Belt One Road Initiative of China: Implication for Future of Global Development

Already, a staggering 40 percent of Chinese rivers are seriously polluted and unfit for use. The median age in China's 35. Not only are SOEs dominant players in China's economy, many are quite large by global standards.

## China's Environmental Challenge: Political, Social and Economic Implications

Emerging technology that makes data more usable, such as machine learning, will resolve this challenge.

## China

Even more important, it will have to learn that soft power cannot be artificially created: such influence originates more from a society than from a state.

### **China's Population Destiny: The Looming Crisis**

As an African looking at China, today I want to go beyond the story of trade between Africa and China. In the case of SARS, it took more than half of the year to contain the spread of the virus.

### **China**

These traits create opportunities for new business models to attract them. The impact on container lines could be significant as well. These include Export Import Bank of China, Agricultural Development Bank of China, and China Development Bank.
