By carrying out this transition quickly and integrating the knowledge, Adobe gained significant market share and differentiation. It was obvious that without rapid action, the company would not survive. Several years ago, we started looking beyond PSP as a philosophy, but as a way to start investing in a very deliberate culture — a culture that is embracing change and driving change.

Perspectives on transformation

FedEx, being a transformation company and known for reliability, has a very strong culture on quality. Examples might include time to market for new product launches, employee turnover rate, customer retention rate, and the timely opening of new stores or manufacturing facilities.
