## 6 evidence

In many programs, adolescents are given the responsibility of developing, implementing, and enforcing rules regarding drugs, violence, and conduct. Regardless of the type of involvement, schools must confront the fact that low-income and minority parents are often isolated from and distrustful of schools. Research has shown that adolescents with high skill levels in each of these components are less likely to use drugs and alcohol and they are less likely to engage in high-risk behaviours.

## Compendium of practices for equality data collection

This is particularly the case for critical infrastructures which must comply with the NIS Rules see question 2. Teachers College Record 90 3 :352-361.

## Evidence

Method The SAP provided treatment to assist men and women change their abusive attitudes and behaviour. Neighborhoods can also be directly strengthened through the contributions of young people.

## The good, the bad and the ugly

In a recent study of self-reported delinquency of youth in Toronto, alcohol and drug abuse was more widespread among delinquent youth. Project SUCCESS was found to be effective with both genders, students from various ethnic groups, and across grade levels from the 9th to 12th grades. The important components of an effective policy brief include the following: 1.
