You can change your choices at any time by visiting. These would be discussed with you in detail before you decide whether to go ahead.

## Guide to PEG

Major complications are extremely unlikely, but as with any medical treatment, there are always some risks e. The PEG tube is passed into your mouth, down through your stomach and out through the incision.

## Yahoo is now a part of Verizon Media

RIG stands for Radiologically Inserted Gastrostomy - inserted using X-ray guidance after having barium placed inside the stomach. Scrutinize for yourself the evidence which paints a portrait of Washington's double-dealings and international intrigue.

## Chest rigs

This will provide immediate antibodies until the body can respond to the vaccine by actively producing antibodies of its own. This may mean eating and drinking small amounts which you enjoy, rather than eating and drinking because you have to. Beyond the seventh day, HRIG is not recommended since an antibody response to the vaccine is presumed to have occurred.
