## Land Capability Class, by State, 1997

The Geological Society, London, Special Publications, 300. There was an underlying assumption that it was unsuitable for grammar 40 T.

## Land Capability for Forestry (LCF)

Textbook in style and jargon-riddled—even the keen amateur would have difficulty in understanding some geological displays. The History of Geoconservation The Geological Society of London Books Editorial Committee Chief Editor BOB PANKHURST UK Society Books Editors JOHN GREGORY UK JIM GRIFFITHS UK JOHN HOWE UK PHIL LEAT UK NICK ROBINS UK JONATHAN TURNER UK Society Books Advisors MIKE BROWN USA ERIC BUFFETAUT FRANCE JONATHAN CRAIG ITALY RETO GIERE' GERMANY TOM MC CANN GERMANY DOUG STEAD CANADA RANDELL STEPHENSON NETHERLANDS Geological Society books refereeing procedures The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. The search for the true nature of fossils is a vital part of our inheritance and is now well documented.

## Land Capability Classification for Soil Conservation

By the 1970s an environmental revolution, with conservation at its core, was in full swing, highlighted by the pioneering 1972 United Nations Conference on the Human Environment held in Stockholm. We live in an expansive and increasingly trodden world and our movement urgently needs to secure and consolidate its cultural roots before yet more decay into the mists of faded memory. The second, linking directly to modern conservation practice, is its history of designation.

## Land Capability for Forestry (LCF)

It has now been revived but employs more conventional technology. However, in some circumstances conservation of a finite and sensitive feature

such as a mineral vein may require an approach much more akin to preservation than conservation. However, travel through rural Ireland to view it was such a major undertaking that the natural philosophers of the day much preferred to sponsor artists to make accurate representations of the columns for them, obviating the need to undertake the arduous trek to this wild coastline themselves.

### **The History of Geoconservation**

Joint Nature Conservation Committee, Peterborough, 217—277. The alternative uses of these soils are more limited than for class III. The major problems were friction between settlers and the Indian tribes already there and comparative lawlessness.

### **Land Capability for Agriculture in Scotland**

They have proved to be landmarks both in topographic painting and European scientific illustration.

### **Land Capability for Forestry (LCF)**

Geological Society of Glasgow, Glasgow. Scribner and Company, New York.
