Effectively permitted the collection of dead branches from the trees.

**Catalog Record: Chapters in the administrative history of...**

The history of the Staple at Westminster in the reign of Richard II. By the late medieval period, town walls were increasingly less military in character and more often expressions of civic pride or part of urban governance: many grand gatehouses were built in the 14th and 15th centuries for these purposes. The overthrow of the Saxon kingdom of England was to transform the country the Normans conquered.

**Frederick), 1855**

The kingdom of Wessex, which eventually laid claim to England as a whole, evolved a centralised royal administration.

### **History of local government in England**

Henry I and Henry II both implemented significant , extending and widening the scope of centralised, royal law; by the 1180s, the basis for the future had largely been established, with a standing law court in Westminster—an early —and travelling judges conducting around the country. The personnel of the house of commons in 1422. Royal castles were used to control key towns and forests, whilst castles were used by the Norman lords to control their widespread estates; a feudal system called the castle-guard was sometimes used to provide garrisons.
