### Prepared and filed by St Ives Burrups

No data are available on transmission of HDV by breastfeeding. Some issues for further research and evaluation have been identified in the previous discussion of infection control and antimicrobial use.

### Transmission of Infectious Diseases Through Breast Milk and Breastfeeding

Susceptibility of methicillin-resistant *Staphylococcus aureus* to the essential oil of *Melaleuca alternifolia*.

### Transmission of Infectious Diseases Through Breast Milk and Breastfeeding

PCR and DNA hybridization studies have detected EBV in the cervix and in breast milk. The nasopharyngeal culture usually becomes negative after 5 days of antibiotic therapy. In the USA, the second reauthorisation of the Prescription Drug User Fee Act came into effect on 1st October 2002 PDUFA III.

### Factors Contributing to the Emergence of Resistance

Corporate responsibility Corporate responsibility has particular resonance for the pharmaceutical sector.
