He patented at least 16 inventions, many of which involved applications of solar energy. Both contain standard expositions of the cosmography of the orbs aflāk , spherical astronomy, planetary motion, and the characteristics of the terrestrial climes. The editorial board is grateful for the aid received from the many other scholars and librarians, too many to list here, who assisted with facts, citations, and general comments on individual entries.

Biographical Encyclopedia of Astronomers

Abbe was particularly interested in the effects of the atmosphere on astronomical observations. Dewhirst Cambridge University Grant Christie Auckland Observatory Gregg DeYoung American University in Cairo Contributors Alnoor Dhanani Institute of Ismaili Studies David S.
