 Elin Formula Index 2.Suppl (for 1980-1987)
 C17 - C22.5
 -Elin Formula Index 2.Suppl (for 1980-1987) C17 - C22.5
 Notes: -
 This edition was published in August 1989

you wanted to reference cell A1 on a worksheet named July Budget, its cell reference would be 'July Budget!'. To create and copy a formula using absolute references: In our example, we'll use the 7.

Formulas

Absolute references, on the other hand, remain constant no matter where they are copied.

Excel formula: List sheet index numbers

. This will allow us to use the exact same value on two different worksheets without rewriting the formula or copying data between worksheets. To reference cells across worksheets: In our example below, we'll refer to a cell with a calculated value between two worksheets.
