Defenders of the truth: The battle for science in the sociobiology debate and beyond. Richardson: Evolutionary Psychology as Maladapted Psychology, Mind, Volume 118, Issue 470, April 2009, pp.

Psychology of Women: A Handbook of Issues and Theories

Evolutionary psychologists have also argued that a lack of special design is evidence of a trait being a byproduct rather than an adaptation; for example, it has been found that men find women's scent more attractive when they are fertile phase than their infertile luteal phase.

psychology

Researchers would then observe the child's reactions to various situations including a stranger entering the room, being left alone with the stranger, and the mother's return to the room. This is because if an organism diverges too much from its original environment, it is unlikely that its traits will be adaptive to the new, changed environment and it is at risk of going extinct.
