Trauma

It didn't keep me up at night reading it, but it was interesting enough that I went back to it every day. Although I still to this day like this book i was WAY to young to read it.

The Best Little Girl in the World by Steven Levenkron

It's all a quick succession of events that are recounted too fast to really get into it, it's not as elaborately written as other ED-related books, doesn't give you as much insight into the mind of an anorexic as other books do. Actors Jason Miller and Charles Durning were close friends; Durning's career making performance was in Miller's 1973 Pulitzer Prize winning play. She is determined to have no fat on her body.

Her obsession begins turning into to an actual fear. I think its an important book even if the writer is in my opion a self-righteous hack.

Student Model: The Best Little Girl in the World

Levenkron sacrifices details and accuracy in his characterization of Kessa by spending an excessive amount of time describing the poor psychologist's struggles to be taken seriously by the doctors at the hospital -- that added nothing to the story, it was just the author's hope that you would sympathize with the psychologist and how rough his life is because of his nobility and heroism. Steven Levenkron has many qualifications. Just simply please leave me a note when you make your purchase.

I read this book a long time ago and still talk about it to this day even though I've never had the eating disorder as our heroine did. I've never had an eating disorder so I don't know what goes through the mind of a person who is suffering from an eating disorder.
